Managed IT Solutions
DropSuite® Data Protection Services

CM3 Building Solutions provides experienced managed Information Technology solutions for your business or facility. We curate the industry's leading products and services to bring the best thinking to every project, and we custom build solutions that fit your business and budget.

We are a proud provider of DropSuite, a cloud data backup service for business continuity and compliance. DropSuite provides effortless, secure backup and restore for Email, Microsoft 365, M365 GovCloud, Google Workspace and QuickBooks Online.

Automate Back ups
Set up automatic back ups with just a few clicks of a button. Perfect for compliance requirements.

Single Pane of Glass
Our dashboard makes it simple to set-up, administer, and manage access, and to restore files.

Granular Restore
Easily find and restore a single email, or a mailbox, or an entire email ecosystem.

Incremental Back ups
Dropsuite finds and backs up only changed files which means your back up time is fast and your storage is minimized.

Military-Grade Encryption
The system uses military-grade AES 256-bit encryption and TLS/SSL to ensure your data is protected in transit and at rest.

Insights BI Analytics
Advanced analytics toolkit that enables you to find patterns of usage, identify issues, and recommend optimizations.

Ransomware Protection
Dropsuite's back up products ensure business email and related digital assets are fully protected by automatically backing up email up to three times a day with secure military-grade encryption.

Regulatory Compliance
Regulatory Compliance safely and securely protects data, provides role-based access to authorized users, and enables 3rd party audits, keeping within regulatory mandates regarding privacy and security of contact information.

WHY EXTRA DATA PROTECTION IS ESSENTIAL

Human Error
Human error is the main cause of cyber security breaches. From simply opening the wrong email to accidental deletions to disgruntled employees, it's very easy to have M365 or Google Workspace data deleted, held hostage by ransomware, or corrupted. That leaves a data protection gap not covered by Microsoft or Google.

Recycle Bin Limitation
Both Google and M365 delete end-users' files in the trash folder / recycle bin after 30 - 90 days. And, many users think of the trash/recycle function as a temporary data back up repository. Unfortunately, employing this strategy is extremely risky, because it exposes your data to ongoing threats.

Service Limitations
Whether you are using Microsoft, G-Suite or QuickBooks, each product has service limitations which means that, in the event of an outage, they do not guarantee retrieval of your data.

Cyber Attack Threat
With cyber-attacks on the rise plus the "new normal" of remote work and the ensuing use of collaboration tools, there are many opportunities for a data breach. Third Party backup is critical to your Business Continuity and data protection/recovery efforts.

COMPREHENSIVE BACK-UP ACROSS ALL PLATFORMS

MICROSOFT

OUTLOOK	SHAREPOINT	ONEDRIVE	CONTACTS, CALENDARS, & TASKS	GROUPS & TEAMS
✓ View email without search ✓ Migrate per user to other user or destination ✓ Download (PST EML) ✓ Download Mailbox ✓ Shared Mailbox ✓ Restore mailbox, folder, message ✓ Migrate per mailbox to other user or destination ✓ Download PST, EML, mailbox Download files	✓ Restore site, document library, folder, files ✓ Restore to other site ✓ Restore all to one folder ✓ Download files ✓ Lists — items and columns for all permissions ✓ Document Libraries — content, views and content types for all permissions ✓ Sub-Sites — lists and document libraries	✓ Restore drive, folder, files ✓ Restore to other drive ✓ Restore all to one folder ✓ Download drive, folder, files	✓ Restore calendar events, contacts, tasks ✓ Download files ✓ Email and Folders for Mailboxes and Public Folders ✓ Shared Mailboxes	✓ Download files ✓ Channel Chat ✓ Tasks ✓ Email ✓ Drive ✓ Site ✓ Calendar ✓ Files ✓ Conversations ✓ Notebook ✓ Planner
