

Fire Alarm Systems

Code-Compliant, Custom Solutions

COMPREHENSIVE SERVICES FROM SITE SURVEYS AND INSTALLATION, TO TEST/INSPECT, MAINTENANCE, AND MONITORING

CM3 Building Solutions brings decades of industry experience to every fire alarm system.

Our Professional Engineers and NICET certified personnel ensure that your system is installed and maintained to the industry's latest codes and standards, including the National Fire Protection Association (NFPA) standards, International Building Code (IBC) and International Fire Code (IFC).

We have extensive knowledge of all fire alarm products and can provide service for your fire safety system regardless of manufacturer.

And for new installations, we deploy the Kidde Commercial Solutions product line.

EVOLVE SERIES

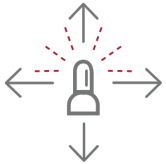

SMALL AND MID-SIZE BUILDINGS

An advanced system with a large touchscreen interface and simplified operation. Designed for user-friendly operation and scalability.

EASE OF SERVICING

Device Mapping automatically ties detector and module serial number to a visual map for ease of installation and servicing.

FLEXIBILITY

13+ selectable notification appliance circuit configurations for use in a variety of settings, from hotels to garages.

Accessing reports now requires 40% fewer clicks.

SIMPLE AND INTUITIVE

10" high-resolution, color LCD touchscreen can display up to 8 events without scrolling, and can be customized with a company logo.

Programmable LEDs with 5-color options provide customizable solutions for any client.

SCALABLE SYSTEM

Each panel can accommodate up to 4 loops, each with 250 addressable devices, 30 remote annunciators, 6 standard programmable virtual switches, and 72 programmable physical switches with 5-color programmable LEDs.

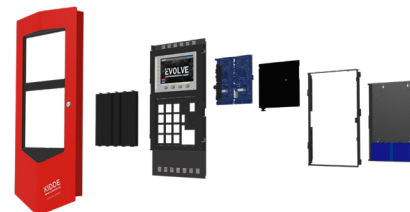

ENERGY EFFICIENT

As the most energy-efficient appliances in their class, the Genesis™ LED series notification devices enable use of smaller gauge wire to save on installation costs.

REDUCED NUISANCE ALARMS

Optica™ Detectors differentiate between nuisance particles like cooking smoke, dust, or steam and serious threats.

RETROFIT CAPABILITIES

Beyond working with existing devices and wiring, the kit eliminates the need to replace the existing backbox, buy new cabinets, disturb existing pipe and wire, or repair walls.

VM SERIES

LARGE BUILDINGS WITH ADVANCED CAPABILITIES

A high-performance, mid-to-large size fire alarm panel with a multi-message LCD display and button-driven interface. This system offers optional voice evacuation capabilities.

HIGH-TECH NETWORKING

Network can include up to 24 panels with quick response times and sophisticated diagnostics. And support for up to 24,000 addressable devices.

BUILT-IN VERSATILITY

The VM control panel has room for up to 3 fully programmable front panel switches.

NEXT-LEVEL POWER

A 10-amp power supply is finely tuned to get the most out of Genesis notification appliances.

HIGH-QUALITY AUDIO

Boasts 3 channels of integrated digital audio plus 2 minutes of on-board programmable message storage.

SUPER-INTELLIGENT DETECTION

Features smoke detection and Carbon Monoxide gas sensing with Optica detectors.

FORWARD-FACING INTEGRATION

A VM Series network is fully compatible with existing and new Genesis notification appliances.

RETROFIT-READY

Designed to be backwards compatible, the VM Series, in most cases, lets you use existing wiring to upgrade a legacy control panel to the latest Kidde Commercial technology.

SERVICE FOR THE ENTIRE SYSTEM

Initiation and Detection Devices

- Smoke Detectors & Heat Detectors
- Duct Smoke Detectors
- Pull Stations
- Carbon Monoxide (CO) Detectors
- 3rd Party System Monitoring

Notification and Output Devices

- Strobes/Horns/Speakers
- 3rd Party System Control
- 3rd Party System Shutdowns
- Elevator Recall Control Sprinkler System Supervision

Site Assessments

Technical Specialists conduct a thorough equipment inspection so you can be confident that we know your system and can support it. And, we are certified to conduct site assessments for DAS.

Installation

We provide installation and design services for the industry-leading Kidde fire alarm product line and many others.

Test and Inspection Services

We hold all certifications needed to provide test and inspection services in New Jersey, Delaware, and Pennsylvania, including NFPA 72- compliant Emergency Responder Radio Communication Systems.

Monitoring Services

We provide UL-certified fire alarm monitoring services.

Emergency Services

We provide 24/7 service and support.

- 80+ field technicians
- 85+ service vehicles
- 24/7 answering service

FIRE SYSTEM SERVICES THAT DELIVER CONFIDENCE

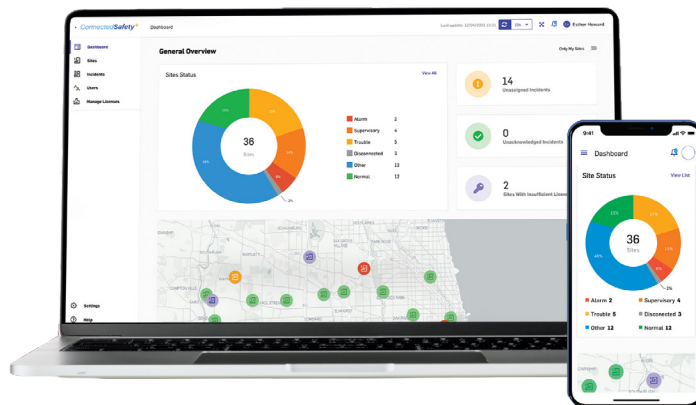

CONNECTEDSAFETY+

A secure, cloud-based platform that provides remote access to the Evolve Series Fire Alarm Systems and connected Kidde Commercial devices to optimize efficiency and reliability.

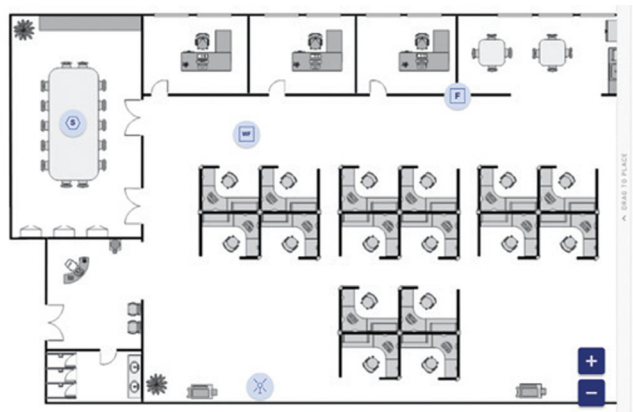

SERVICE EFFICIENCY

Access real-time device diagnostics and critical system insights with Manager+ Dashboard, allowing you to remotely diagnose issues and prepare for service calls more efficiently.

FIRST-CALL SUCCESS RATE

ConnectedSafety+ helps to make sure you're sending the right service team, with the right experience, and the right tools, to help ensure first-call success and save you time and money.

PROACTIVE SUPPORT

Monitor devices across your customers' sites with the Floorplan+ feature, so you can be more proactive with troubleshooting, better predict maintenance needs, and even make smarter device upgrade recommendations.

EFFICIENT INSPECTION AND REPORTING

Through the Inspection+ feature, one person walk test capability saves time and money on inspections, while instant report generation expedites documentation to support code compliance.

CUSTOMIZED, CONNECTED SUPPORT

The TechnicalSupport+ feature allows the CM3 support team to view your connected site system during support calls, and assist with accelerating on-site issue resolution through a digitally optimized experience.

CERTIFICATIONS

- NICET Engineers: Levels 3 and 4
- NICET Field Technicians: Levels 1 and 2
- Professionally-Trained Technicians
- Delaware, New Jersey and Pennsylvania Certification
- Emergency Responder Radio Communications Certification
