

Schneider Electric

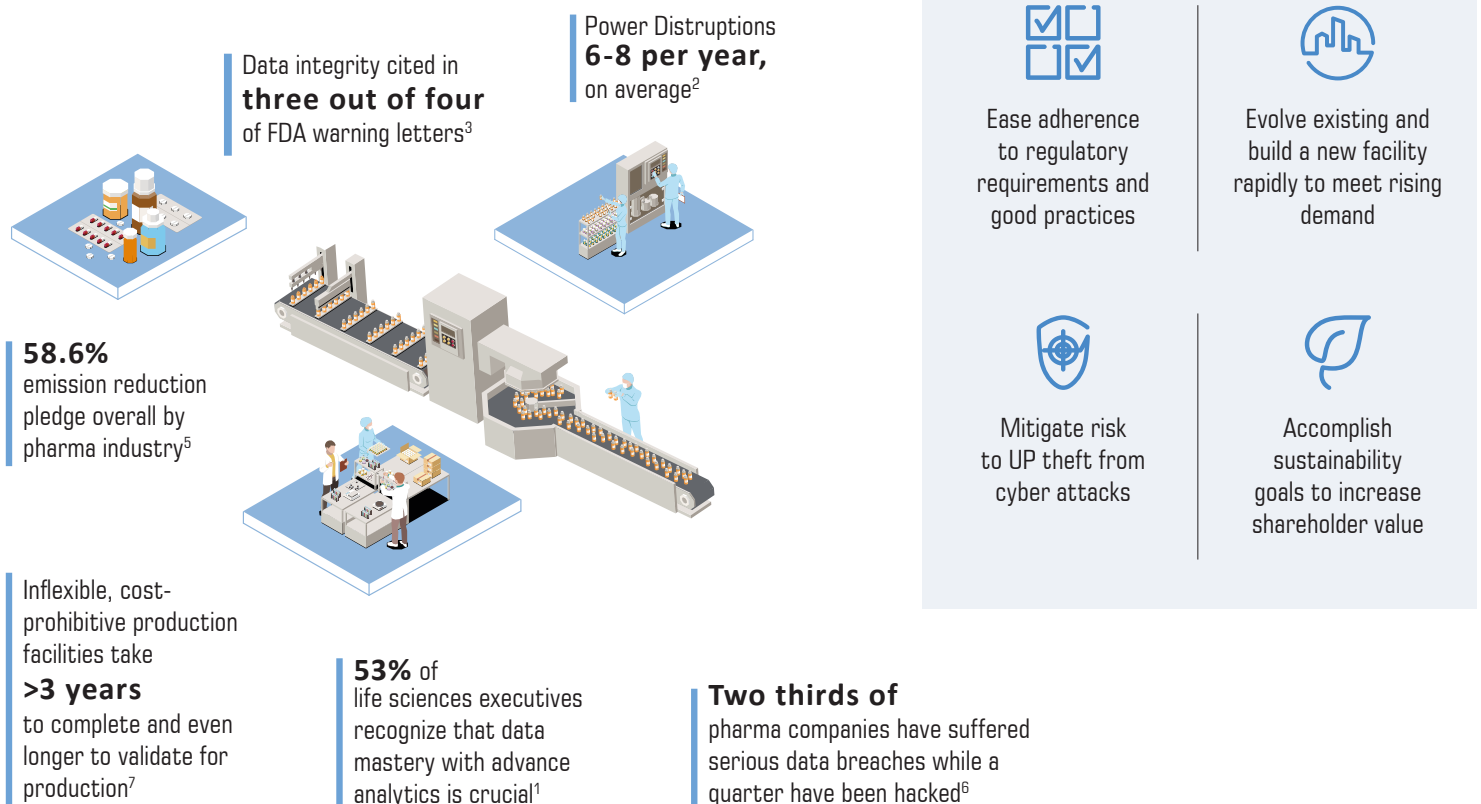

EcoStruxure for Life Sciences

Building Next-Generation Industries

DEVELOPING LIFE SCIENCES FACILITIES OF THE FUTURE

Managing life sciences facilities effectively is mission-critical to profitably produce medicinal products of consistent quality.

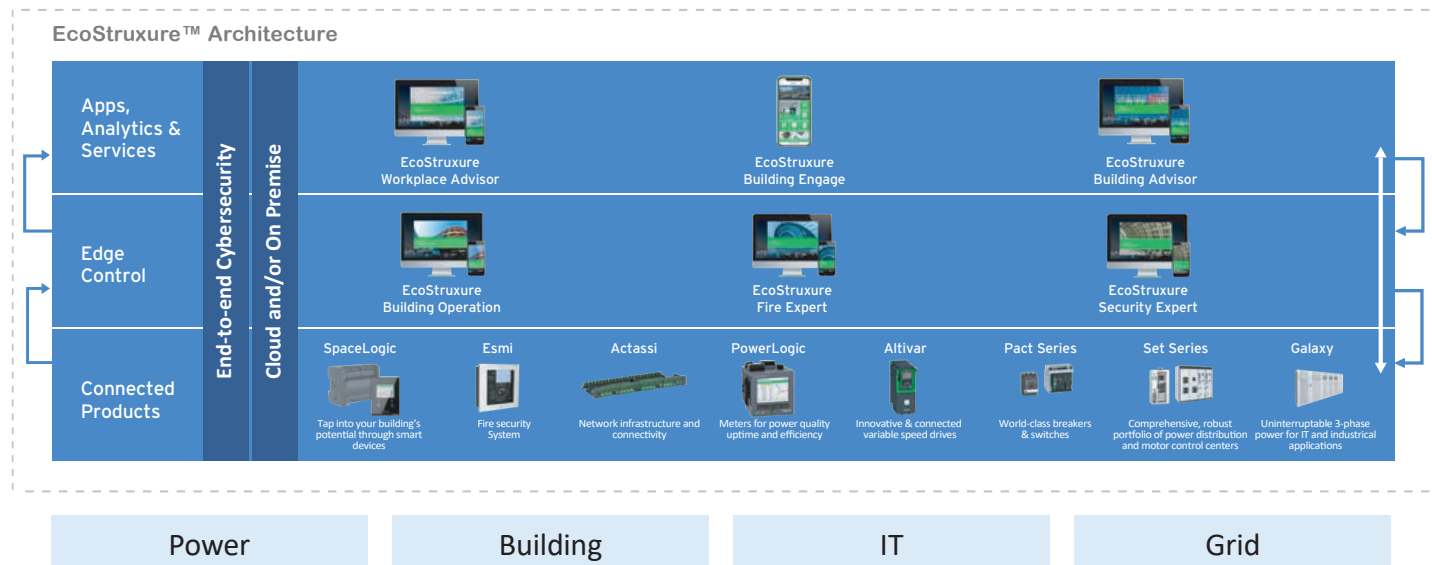

Facilities play a vital role in the efficacy of the product lifecycle, driving the cost of medicinal products down and delivering quality products to patients faster.

ECOSTRUXURE™ FOR LIFE SCIENCES FACILITIES

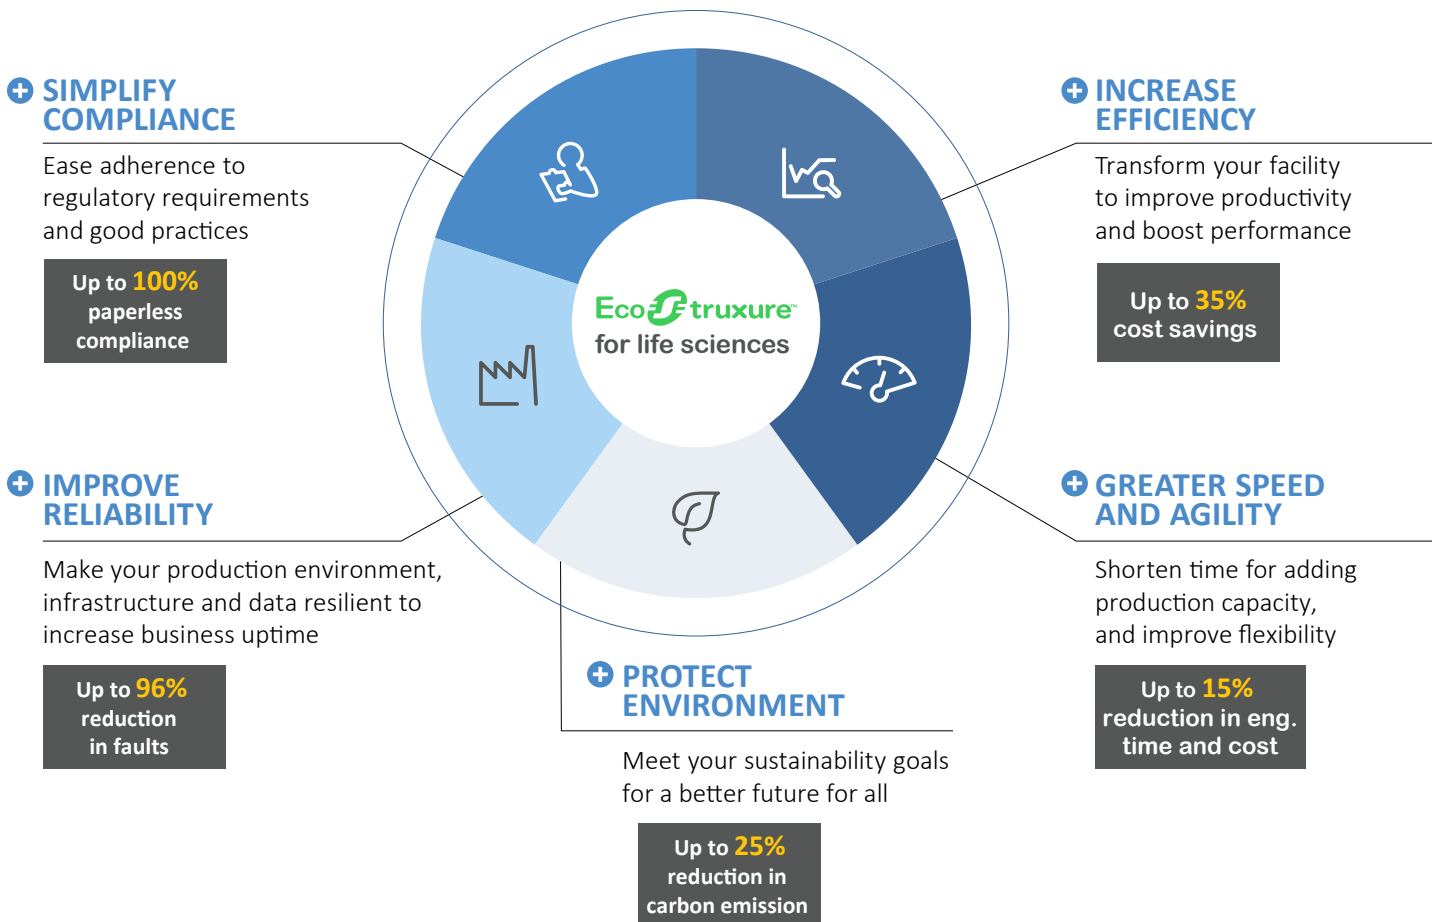

IoT-enabled • Plug-and-play • Open • Interoperable architecture and platform

Unleash innovation for power, building, IT and grid at every level, from connected products to edge control and application, analytics and software, end-to-end cybersecurity and integration of third-party suppliers.

KEY BENEFITS WITH ECOSTRUXURE™ FOR LIFE SCIENCES

A reliable, efficient, flexible, compliant and sustainable facility for your production

CASE STUDY - BOSTON SPECIFIC

Boston Scientific achieves operating

PERFORMANCE

with EcoStruxure™ for life sciences

Boston Scientific is dedicated to ensuring its facilities are running at peak operating performance to minimize energy waste and promote a sustainable culture and environment. Making the data work is an important part of that goal.

Simple solutions for a complex system.
