

Technology Services

Grandstream Access & Paging Solutions

Building security is like insurance, it is something you hope to never have to rely on but there may come a day where you will be thankful to have deployed security measures. Whether it is the result of property damage, a break in, employee malice, or other building threat, knowing that the technology is in place to protect building assets will bring comfort to any business owner. These facility management products are built to deliver a powerful security solution that can be customized to any business's needs.

FACILITY ACCESS SYSTEMS

Track & Manage Access to Any Building

The GDS series of Facility Access Systems tracks and manages access to any physical building and provides a dedicated audio and/or video intercom. Thanks to its integration with other Grandstream endpoints the GDS series offers a complete end-to-end solution for access control, video/audio intercom, and security needs.

GRANDSTREAM SECUREACCESS

Cloud-based Access Control Management Solution

The SecureAccess App is a cloud-based access control management solution that is compatible with the GDS3720 Series of Smart IP Video Door Stations. Users and residents can easily open doors, video call with visitors, preview videos, and create temporary passwords using the SecureAccess App.

INTERCOM & PAGING SOLUTIONS

CONTROL STATIONS

HD Intercom & Facility Control Stations

The GSC series of HD Intercom and Facility Control Stations provide dedicated devices to manage door access, video surveillance cameras, intercoms, building communications and more. Ideal for business, medical, residential, hospitality and retail facilities, they are designed to seamlessly integrate with a wide range of Grandstream products and third-party devices to create a centralized facility management solution.

SIP INTERCOMS & PAGING

Expanded Communication & Added Security

The GSC Series offer top-notch intercom and paging functionality ideal for office buildings, enterprises, schools, healthcare facilities, retail centers, residential settings, warehouses and other indoor environments. This series allows businesses to build powerful SIP intercom and paging solutions that expand communication and add security.
