Grandstream Phone Solutions

Developing a powerful solution that is customized for every individual streamlines communication and workload efficiency. These state-of-the-art telephony devices more accessible and easier to deploy than ever before.

GRP SERIES CARRIER-GRADE IP PHONES

The GRP series are carrier-grade IP phones designed for mass deployment. This series of next-generation IP phones features a sleek design, a reimagined user experience, unified firmware and powerful feature options. For cloud provisioning and centralized management, the series is supported by Grandstream's Device Management System (GDMS).

PROFESSIONAL IP PHONES

The Professional IP Phone series offers a powerful, easy-to-use and easy-to-deploy voice platform with next-gen features for high-end users. Powerful features include Bluetooth & Wi-Fi support, a dual LCD screen, support for up to 14 lines, customization with personalized faceplates, 5-way conferencing, and more.

ESSENTIAL IP PHONES

The Essential IP phone line provides simple, easy-to-use devices with zero touch provisioning for mass deployment and easy management. Built for the needs of on-site and remote workers and designed for easy deployment by enterprises, service providers and other high-volume markets, these essential IP phones offer an easy-to-use and easy-to-deploy voice endpoint.

DECT CORDLESS IP PHONES

Allowing users to mobilize their VoIP network throughout any business, warehouse, retail store and residential environment. The DECT IP phones are supported by the DECT base stations to deliver top-notch telephony and mobility performance.

DECT CORDLESS HD HANDSETS

This handset series allows the user to move freely and efficiently throughout any work environment and is supported by Grandstream DECT VoIP base stations.

DP720

DP722

DP725

DP730

DP735

DP750, DP752, & DP755

Long-range DECT VoIP Base Stations

Pairs with the DECT handsets to offer mobility to business and residential users. These stations support 3-way voice conferencing, full HD audio, and integrated PoE. A shared SIP account on all handsets gives users the ability to answer all calls regardless of location in real-time.

- **DP750:** Up to 10 SIP accounts per system; up to 10 lines per handset. Supports a range of 300 meters outdoors and 50 meters indoors.
- **DP752:** Up to 10 SIP accounts per system; up to 10 lines per handset. Supports an outdoor range of up to 400 meters with the DP730/DP725/DP735 and 350 meters with DP722/DP720, 50 meters indoors.
- **DP755:** Up to 20 SIP accounts per system; up to 20 lines per handset. Supports an outdoor range of up to 400 meters with the DP730/DP725/DP735 and 350 meters with DP722/DP720, 50 meters indoors.

DP750

DP752/55

DP760

Long-Range Wideband DECT Repeater

The DP760 is a powerful wideband DECT repeater (wireless relay station) that auto associates to Grandstream DECT base stations. It extends an additional range to give users the freedom to move around their home or work space.

WI-FI CORDLESS IP PHONES

Mobility and durability to suit all portable telephony needs with a rechargeable battery for extended talk-time.

CORDLESS WP SERIES

The WP series is designed to suit a variety of enterprises and vertical market applications, including retail, logistics, medical and security. This series offers a powerful combination of features, mobility and durability to suit all portable telephony needs. Dual-band Wi-Fi with efficient antenna design and advanced roaming support.

WP836

WP825

WP856

Wi-FiSmart IP Phone with Integrated Dual-Band

The WP856 runs Android version 13 and is certified with Google Mobile Services. It includes integrated dual-band Wi-Fi 6 and has a built-in scanner for scanning 1D and 2D barcodes and supports near-field communication (NFC) to allow the device to exchange data with other NFC devices. It sports a 5.5 inch high-definition touch screen, provides extended talk-time of up to 20 hours.

IP VIDEO TELEPHONY

Advanced video and audio communications for the desktop.

GXV SERIES

The GXV series of IP Video Phones for Android™ combines a 16-line IP video phone with a multi-platform video collaboration solution and the functionality of an Android tablet to offer an all-in-one communications solution.

HOTEL PHONES

Compact Hotel Phones ideal for hotel deployments and other similar environments.

GHP SERIES

The GHP Series of hotel phones feature easy-to-use IP phones for any hotel room that can be programmed and customized based on the needs of hotels and their guests. They can be installed on desktop or wall-mounted and contain Wi-Fi adjacent models equipped with integrated dual-band Wi-Fi to support wireless deployments. With a sleek and compact design, this series is the ideal fit for not only hotels but also apartments, dormitories, hospitals, retail and much more.

EXTENSION MODULES

Ideal for Increasing Call Control

An easy-to-setup extension module that is ideal for increasing call control efficiency for receptionists, executives or any high-volume user. Any attendant will enjoy maximized productivity by monitoring and dispatching multiple incoming calls with our Extension Modules.
