Grandstream UCM6300 Ecosystem & IP PBXs

A complete communications and collaboration platform for on-site and remote solutions. The UCM6300 ecosystem pairs together the customization and control of an on premise IP PBX with the remote-access of a cloud solution to provide an easy-to-manage hybrid communication platform for businesses of all sizes.

UNIFIED COMMUNICATION & COLLABORATION SOLUTIONS

Offering zero configuration provisioning of SIP endpoints, along with API available for third-party integrations, including CRM and PMS platforms. It ensures advanced security protection with secure boot, unique certificate and random default password to protect calls and accounts.

UCM6300 SERIES

This series of IP PBXs provide a platform that unifies all business communication on one centralized network, including voice, video calling, video conferencing, video surveillance, web meetings, data, analytics, mobility, facility access, intercoms and more. It supports up to 3000 users and up to 450 concurrent calls.

UCM6300 AUDIO SERIES

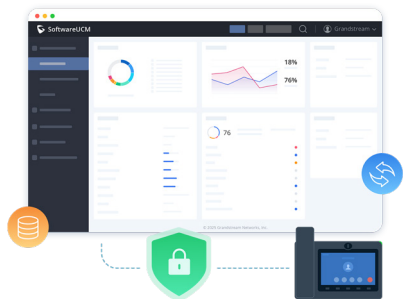

This series of IP PBXs provide a platform that unifies all business communication on one centralized network, including voice, instant messaging (IM), voice meetings, audio web meetings, data, analytics, mobility, facility access, intercoms and more. It supports up to 1500 users and up to 200 concurrent calls.

SCALABLE & SECURE PBX SOLUTIONS

CLOUD UCM

This scalable solution can be easily expanded at any time without the need for extra equipment, provides enterprise-level security and reliability, and supports powerful third-party integrations and expansions. It supports up to 200 users and up to 64 concurrent calls with instant messaging/chat, screen sharing, whiteboard, file sharing, recording, meeting assistant, and more.

SOFTWARE UCM

A state-of-the-art suite of communication and collaboration features with bank-grade security, advanced customization, and a variety of scalable plan options, SoftwareUCM is the ideal PBX solution for enterprises, small-to-medium sized businesses, retail, hospitality, and residential deployments. It supports up to 100-5000 users and 32-1000 concurrent calls with a built-in audio, video, chat, and web meeting platform.

UCM REMOTECONNECT

UCM RemoteConnect builds a secure, easy-to-manage communications and collaboration solution for remote workers and devices. It offers a companion cloud service for the UCM6300 series that provides always-on, automatic NAT firewall traversal to ensure secure connections by remote users.

WAVE APP

Wave is a FREE easy-to-use platform to remotely join, schedule and hold meetings, calls and conferences from anywhere. It also allows UCM6300 series users to directly call other extensions, landlines, and mobile numbers.
