Grandstream Networking & Convergence Solutions

This series of Convergence and Networking Solutions offer powerful and secure networks with wide coverage range that feature industry-leading setup and management thanks to embedded provisioning and management controllers.

CONVERGENCE SOLUTIONS

All-in-one solution redefining the communications experience by merging unified communications and networking into one platform. **3-Year Warranty Guaranteed.**

GCC6010 SERIES

The GCC6010 Series provides an extraordinary all-in-one solution that merges unified communications and networking solutions into one platform. These state-of-the-art devices combine the functionality of 4 products to provide an all-in-one solution that includes a VPN router, next-generation firewall, IP PBX, and network switch or Wi-Fi access point.

GCC6020 SERIES

The GCC6020 Series provides an extraordinary all-in-one solution that merges unified communications and networking solutions into one platform. These state-of-the-art devices combine the functionality of 4 products to provide an all-in-one solution that includes a VPN router, next-generation firewall, IP PBX, and network switch. The

NETWORKING SOLUTIONS

Wi-Fi Access Points, Gigabit Routers, and Networking Switches to offer a complete wired and Wi-Fi solution. **3-Year Warranty Guaranteed.**

FIXED WIRELESS BRIDGES

Ideal Long-Range Wireless Bridges

These fixed wireless bridges offer point to point and point to multipoint modes to meet different scenarios and a tremendous coverage range. To ensure easy installation and management, the fixed wireless bridges use a controller-less distributed network management design in which the controller is embedded within the product's web user interface. These bridges are also supported by the GWN App, which can be configured by connecting Wi-Fi broadcasted by the device itself when it is not convenient to access the LAN and the GDMS cloud platform offers remote management. Fixed wireless bridges are ideal for long-range deployment scenarios like factories, construction sites, parking lots, scenic locations, and more.

NETWORKING ROUTERS

Faster Wi-Fi Speeds to Power Smart Offices & Home Automation

Ideal for small offices, home offices and remote workers, these routers can be used to power smart office and home automation, smooth 4K Ultra HD streaming, web meetings, video conferences, online gaming and more. It supports VPN to allow remote employees to securely connect to the corporate network from home or branch offices. Enterprise-grade security features ensure secure Wi-Fi and VPN access, including unique security certificates and random default passwords. By combining accelerated Wi-Fi speeds, mesh networking and wired AP connections and other advanced features, these devices are ideal routers for a growing home or small business network.

INDOOR WIRELESS ACCESS POINTS

Easy Installation & Management

These powerful indoor Wi-Fi Access Points offer high-performance networking, tremendous Wi-Fi coverage range. The series is supported by GDMS Networking and GWN Manager, a cloud and on-premise free management platforms. Each device also includes an embedded controller within the product's web user interface for easy administration of locally deployed Wi-Fi APs. GWN series indoor Wi-Fi access points are ideal for any size business or enterprise and can be scaled over time as your business grows.

OUTDOOR WIRELESS ACCESS POINTS

Long-Range & Weatherproof Casing

These outdoor Wi-Fi Access Points offer weatherproof certified casing and supports up to 300-meter coverage range. The series is supported by GWN. Cloud and GWN Manager, a cloud and on-premise free management platforms. Each device also includes an embedded controller within the product's web user interface for easy administration of locally deployed Wi-Fi APs. GWN series outdoor Wi-Fi access points are ideal for enterprises, multiple floor offices, warehouses, parks, hospitals, schools and more.

NETWORK MANAGEMENT

Free Enterprise-Grade Network Management Platforms

The GWN series of Networking Solutions offer powerful and secure networks with wide coverage range that feature industry-leading setup and GDMS Networking and GWN Manager are free enterprise-grade, management platforms for Wi-Fi access points, routers, and switches. Thanks to streamlined monitoring and maintenance, managing your network or several networks across multiple locations has never been easier.

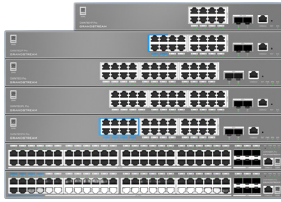

NETWORK SWITCHES

Plug-and-play Connectivity with Customized Contols

Offering fully managed and plug-and-play unmanaged switches, including PoE-designated models. A variety of options allow medium-to-large enterprises to build scalable, secure, high-performance, and smart business networks that are fully manageable.
